Herbert Hoover Gentry was found guilty of slaying Mrs. Dorothy Deal of Rome, Ga., a friend of his wife, and tossing her body in a cesspool. The jury returned a verdict of guilty of first-degree manslaughter late last night.

Gentry still faces trial on charges of murdering his 19-year-old wife on the night of Mrs. Deal's death.

Gentry, informed of the verdict in his cell after the jury had deliberated four hours and 35 minutes, was obviously relieved. He had been charged with first degree murder in Mrs. Deal's death and could have drawn a death sentence if convicted on that charge.

charge.
In a lengthy trial during which Gentry testified in sign language, the defense brought out that the deaf mute's wife had been "run-uing around with other men."
Mrs. Deal's body was dragged from a privy pit on Sept. 10, along with the bullet-pierced corpse of Gentry's young wife.

entry's young wife. Gentry had confessed earthat he shot the two women, during the trial he testified that colice beat the confession out of sim. He said the real killer was Frank Adair, a Talladega contrac-lor, who attended a tourist cabin

In his charge to the jury, Judge W. B. Debardeleben defined first and second degree murder and first degree manslaughter. The jury decided Gentry was quitty of inst degree mansaughter. The jury decided Gentry was guilty of the latter in Mrs. Deal's death.

The judge said Gentry would be tried for the slaying of his wife during the next term of court.

Arkansas PMA Told to Buy Cottonseed

Little Rock, Oct. 13 —(P)— The Arkansas committee of the production and marketing administration has been authorized to purchase from eligible producers, 1949 cottonseed at \$46.50 a ton, C. C. Willey, Altheimer, PMA committee chairman, said this compares with the loan rate of \$49.50 a ton under the commodity credit corporation farm - storage program.

program.
The loan program was announced several weeks ago, but many Arkansas farmers have been unable to obtain necessary storage facilities to take advan-tage of the loan, Willey said. That led to the decision to buy seed as well as make loans.

Seed will be purchased at the price of \$46.50 a ton if the moisture content is low enough that it can be stored safely. REMOVED FREE Within 40 Miles DEAD HORSES, COWS

The makers of Creamo Margarine discovered many years ago that pure sweet cream added to their already top-quality margarine made it even better. Better than it is possible to make a margarine without cream. They found the addition of pure cream made Creamo sweeter, smoother and more delicious; so much more delicious, the difference is distinctive. This one simple but costly improvement was incorporated in the churning of Creamo Margarine and like other simple but worth-while discoveries, the addition of pure cream less made Creamo the outstanding product in the bread-spread field. If you haven't already tried cream-enriched Creamo Margarine, try a pound of this deciously different spread today, Ask our grocer for Creamo, the only margarine made with cream.

"I dunno ... I just said Creamo's made with cream and he took off

toward the grocery store." (see column at right -)

Who wants to put A & Pout of business?

Not our customers. Many thousands of them are writing and phoning us and telling our clerks and managers that they want to continue to enjoy quality A & P foods at low A & P prices.

Not our suppliers. Farmers and manufacturers alike are telling us that they want to protect this efficient outlet for their products.

Not our 110,000 employees. They want to keep the high wages, good working conditions and security they enjoy with A & P. Not labor. Union leaders are wiring us to ask what they can do to defeat this threat to labor's living standards.

All these people are telling us they don't want the anti-trust lawyers to put A & P out of business.
